

It's Time to Learn About Healthy Air

Good morning, class! Today, we have a very special guest. He's going to help us learn about the air in our homes and how to make sure we're breathing healthy, fresh air all year long.

I want you to be respectful, use your imagination, and most importantly, have fun!

Healthy Air Professionals Who Care

Hi! I'm Harry the Bear and I'm an Healthy Indoor Air Professional.

My job is to help you breathe healthy air all year long. I've got my testing equipment ready and I'm good to go.

Want to be my assistant? Grab some crayons. Let's get started!

Starting Fresh

Spring is when flowers begin to bloom. They are fun to pick, but they also bring allergies! Pollen can stick to your clothes, your pets, and even your hair, sneaking its way into your house. Yuck!

Use lots of pretty colors while I set up this air monitor. That should help with detect spring allergies.

Keep Your Cool

It's time for summer fun! School is over, which means you can play outside and get some sun. But be careful! Always wear sunscreen and drink plenty of water. While you're coloring, I'll sample your air, which can help to find, the musty smells, and sources of moisture.

Creepy Crawlies

Autumn is when all the little monsters come out to play. No, not your Halloween costume, silly!

Little monsters like dust mites and viruses can be real troublemakers in your home. Here, I'll sample your air while you color to help get rid of them. Make sure to wash your hands!

Winter Wellness

Let it snow, let it snow! Who doesn't love a winter wonderland?

After you're finished sledding and making snowballs, make sure to come inside for some hot cocoa. While you're sipping and coloring, I'll recommend actions and product so you don't catch a cold. Save a cup for me!

Raising a Healthy Home

Thanks for helping me out! With your imagination and my expertise, we turned this house into a home filled with healthy fresh air. Remember healthy air is not a season or event, it's a continuous process.

Now, let's get back to class.

It's Time to Care About Healthy Air

One last thing before I have to go, kids!

Did you know healthy air has a ton of other great benefits? In addition to fewer allergies, pests, and viruses, Healthy Air is great for your brain. It helps us think more clearly in the classroom and at home, helping us learn and grow.
